EnableMart Releases 2009 Educator's Guide to Assistive Technologies

EnableMart's industry experts have just released a new guide to assistive technologies on their blogspace, www.LetsBlogAbility.com, that lists all the most critically acclaimed technologies and curriculums all in one place. To be clear, assistive technologies are software applications or external devices that people of varying disability use everyday for magnification, amplification, learning & even basic communication. This new guide is a great resource to special education teachers and parents facing the daunting task of selecting technologies and curriculums for their students & children with special needs.

EnableMart executive, Michele Paley has stated "In a world where technology seems to be changing on an almost hourly basis, it can be pretty difficult to keep up sometimes. Through our newly-redesigned blog, we hope to break through this frustration by offering timely advice and comparisons as well as up-to-the-minute announcements about new products and price drops across the assistive technology industry."

With over 10 years in the business, EnableMart has earned the trust of countless numbers of school districts, therapists, and government entities all over the country. They are number one in their market for a reason... Fair Prices, Great Customer Service, and tons of experience! Be sure to check out their Buying Guide online at <http://www.LetsBlogAbility.com>
