EnableMart Signs Master Distribution Agreements with Maltron Keyboards & Keys-U-See

EnableMart has grown over the past 10 years to become one of the most trusted sources for Assistive Technology Solutions and is continuing to build on that reputation by taking on the role of master distributor for two well-known keyboard lines. Exclusive agreements have been signed with PCD Maltron who specialize in concave ergonomic keyboards and also with Genesis Worldwide, makers of the popular Keys-U-See line of keyboards.

PCD Maltron has named EnableMart as the master distributor for the entire United States. End-users and resellers of the Maltron keyboards nation-wide will benefit from greater availability and shorter lead times on orders through increased inventory levels and a state-side supply of the UK based keyboards.

The agreement with Genesis Worldwide provides that EnableMart will be the master distributor for the western half of the United States including any state west of the Mississippi River. While the Keys-U-See keyboards are all made in the USA, customers will enjoy reliable one to two day turnaround on orders and a customer service experience that is second to none.

EnableMart has taken on increased inventory supplies, which not only aids in order fulfillment but has also helped to drive down end-user pricing. Through these new streamlined processes EnableMart has been able to lower the US MSRP of the Matron keyboards by an average of \$100-200 per board. For information on purchasing or reselling either of these brands visit <http://www.enablemart.com> or call (888) 640-1999.

EnableMart's product offering of over 3,000 assistive technology and assistive living devices from over 200 manufacturers, in addition to their expert product knowledge, makes them the perfect channel for these two brands. EnableMart's staff is steadfast in their mission to change the lives of individuals with disabilities and more committed than ever to eliminating barriers and paving the way to independent living.

###

EnableMart, one of the largest distributors of Assistive Technology in the US has recently signed agreements with Maltron PCD and Genesis Worldwide to become master distributors of their AT keyboards.
